Cotton Opens at Decline.

By Associated Press.

New York, Sept. 9,—The cotton market opened steady at a decline of 1 to 10 points. Active months soon showed net losses of about 4 to 8 points under Southern selling. Private reports of further showers in Oklahoma brought in some buy ing, however, and after initial of ferings had been absorbed, market steadied on covering. De-cember selling up to 17.88 by the end of the first hour. The market at that time was fairly active, prices holding well up to or within 2 of 3 points of yesterday's closing quotations.

The market turned easier late in the morning with the appear ince of more Southern hedge sell ing. Trade demand was less in evience and there was also renewed liquidation and realizing. At mid day October was ruling around 17.53 and January 17.78, or about

11.53 and 3 and 11.53 and 11.54 and 11.55 and buying which appeared to be based on the detailed weather report showing general rains in the Oklanoma district.

The rally was not fully maintained, but the market was quiet and steady around 2 o'clock, December selling at 17.73, or about 13 or 1points net lower.

New Orleans Opens Steady. By Associated Press.

New Orleans, Sept. 9.—The cot-on market opened steady although Liverpool was easier than due First trades here showed a little change, being one point down to 3 points up. Rains in the Western helt and large sales of spots in Liv-erpool held the market for a time but later selling by ring traders caused prices to react. October raded down to 18.68, December to 7.74 and January to 18.78 or 7 to

1 points below the opening.

The market continued to ease off during the greater part of the morning on selling. There was also more or less hedge selling, prices easing off 20 to 24 points down rom yesterday's close. The de cline attracted some trade buying and there was also more or less covering on the outlook for less favorable weather in the belt. The market railled 7 to 13 points near mid-session.

The market proved juiet but seady at mid-session with prices uling within the earlier range and about 12 points above the lows of

termine its value. The question is, how many cups will a pound of coffee produce- Coffee ranges from 23 to 50 cups to the pound, family use, if ground fine, for urn, the best coffees will produce 60 cups to the pound. Adulterated coffees are not cheap at any price, the lower the price, the less cups a pound will produce, to say nothing of the difference in the flavor For example—a coffee that retails for 40c will produce about 25 cups to the pound, whereas a coffee that retails for 60c will produce 50 cups per pound. Comparing the 40c coffee with the 60c coffee, you save 20c per pound by using the high grade coffee as it takes 2 pounds of cheap coffee to produce as much liquid as 1 pound of high grade coffee.

There is no better coffee at any price than "Royall's King of the Cup" and none that will produce more cups per pound.

KLAN FIGHT NIPPED WHEN NAME STRICKEN FROM RESOLUTION

By Associated Press.
San Antonio, Texas. Dan Moody, in a statement Wed-nesday said the committee on platform and resolutions of the Democratic convention did not use the plank on the Kil Klux Klan that he proposed. In his plank he stat ed "that the existence of the Ku Klux Klan in Texas" has introduc-'ed a question dangerous to free government, "in:o politics of this 'State to the injury of Texas and the 'embarrassment of her people."

"! Moody said the sub committee which was composed entirely men who were sincere in their opposition to the Klan and had at all imes been outspoken on their at titude, wanted the platform to ex press opposition and voted unanimously for the choice of expression used in the plank as finally adopted and it was unanimously adopted by the committee on platform.

The platform adopted mentioned secret societies but not the Klan. There was no fight on the floo over this matter because the platform expressed opposition to the Klan and the fight would have amounted only to a contest over a choice of words," Moody said.

San Antonio, Sept. 8.-Democrats of Texas returned home today after concluding a State convention that was harmonious throughout except for last night's furore over the scatting of W. L. Thornton of Dallas as a member of the executive committee.
The expected pyrotechnics over

sented on the convention floor had all reference to that order strick-In a plank offered to the subcommittee of the committee resolutions and platform, members of the Klan were asked to with draw and abandon the order in Texas. They sought to draw away the minds of the people from the issues, of honesty and efficiency which were the real ones," he said. "They thought I would have the cowardice not to declare myself upon that issue. But I want to say now that I believe it to be a funda mental doctrine of a free govern-ment that Jew. Noted Authority on Distribution and Marketing in his address to sales managers at Akron, Ohio says-

"A striking example of economical distribution is The Hicks Rubber Company of Texas, the largest tire house in the United States, who are distributing Dayton Thorobred Tires at Prices Competitive with Ordinary standard tires. As you all know this tire commands a price about 20 per cent higher than standard tires and the cost of building is about 20 per cent higher—yet this company, through eash buying and economical distribution, sell these tires at ordinary prices for standard tires. As a result they are growing by leaps and bounds, and unless other tire companies get a better plan of distribution they CANNOT meet the competition of The Hicks Rubber Company of Texas.4
